DANIEL LAWAL

Computer Science Student | Frontend Developer

Lagos, Nigeria | daniellawal015@gmail.com | Portfolio: daniel-portfolio-v2-iota.vercel.app | GitHub: github.com/daniellawal015-code | LinkedIn: linkedin.com/in/daniel-lawal-135b54418

PROFESSIONAL SUMMARY

Computer Science student and aspiring frontend developer with hands-on experience building responsive, interactive web applications and business websites. Experienced with React, JavaScript, HTML, CSS, Tailwind CSS, PHP, Vite, Git, and modern deployment platforms. Strong interest in frontend development, user experience, and building practical digital products.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3, PHP
Frontend: React, Tailwind CSS, Responsive Web Design, UI Development
Libraries & Tools: Vite, GSAP, Lucide React, npm
Backend & APIs: PHP, REST APIs, Resend
Development & Deployment: Git, GitHub, Vercel
Other: Accessibility, Form Validation, Animation, API Integration

PROJECTS

Daniel Lawal — Developer Portfolio | *React* | *Vite* | *Tailwind CSS* | *GSAP* | *Resend* | *Vercel*

- Built a responsive single-page developer portfolio showcasing projects, technical skills, experience, and contact information.
- Developed reusable React components and responsive section-based page architecture.
- Implemented GSAP animations, scroll-triggered reveals, direct hash navigation, and reduced-motion accessibility behavior.
- Built a validated contact form and integrated Resend for email delivery through a server-side API endpoint.
- Deployed the production application with Vercel and managed source code with Git and GitHub.

Prestige Beauty | *PHP* | *JavaScript* | *HTML* | *CSS* | *Responsive Web Design*

- Designed and developed a luxury beauty and wellness web platform focused on service presentation and user experience.
- Created responsive interfaces for desktop and mobile users and implemented interactive content sections.
- Applied modern frontend design principles, visual hierarchy, and responsive layouts.

R-Rise Foundation | *Web Development* | *Responsive Design* | *UI Development*

- Developed a responsive foundation website focused on clear information presentation and accessibility.
- Structured content and navigation for a straightforward experience across different screen sizes.
- Implemented reusable interface elements and professional presentation of organizational information.
